Some helpful suggestions:

If you encounter problems when placing an order, make sure you are using a relatively new version of your Internet Browser. Our website supports Internet Explorer v5+ and Firefox v1+ as well as most other modern browsers.

Want to place an order but don't have a PayPal account? Don't worry, you don't need one. If you have one you can use it, but it's certainly not required. When prompted you can simply enter your credit card information and your transaction will be processed. We like to keep things simple.
